PROFILE

Senior Developer and Team Lead with **7 years** in enterprise software for the leasing and mobility sector (Arval, Athlon and Santander Leasing). I lead a 3-5 person remote team working with colleagues across Europe and India, act as Scrum Master and code daily with .NET, Java and Angular. I design REST APIs and build CI/CD pipelines with GitHub Actions and Azure DevOps. Previously 15+ years in B2B sales and IT support: I understand the client's business.

PROFESSIONAL EXPERIENCE
